

## Adding a new testimonial

- (1) To add a new testimonial, go to the 'Testimonials' tab, and choose 'Add New'. You will see the following screen:

The screenshot shows the 'Add New Testimonial' form in a WordPress dashboard. The left sidebar contains a menu with 'Add New' (1) highlighted under the 'Testimonials' section. The main content area has a title 'Add New Testimonial' and a 'Screen Options' dropdown. The form includes a text input for 'Add title' (2), a 'Testimonial field group' section with a 'Testimonial text' (3) area, and a 'Testimonial client' (4) input. On the right, the 'Publish' section shows 'Status: Draft', 'Visibility: Public', 'Publish immediately', 'Readability: Needs improvement', and 'SEO: Not available'. At the bottom right, there is a 'Featured image' section with a 'Set featured image' (5) link. The 'Publish' button is visible at the bottom right of the form.

Here you can fill in the testimonial information. (2) The title is for organizational purposes, and won't show up on site - it's just there so you know what it is. (3) The text and (4) client name will be shown on site.

(5) Make sure you remember to add a featured image, with 'Set featured image' on the right side. This image will show up on the homepage along with the quote.

Also please note, the site is configured to show 6 randomly selected testimonials on the front page. If the new one doesn't show up right away, you might just need to refresh the page a couple of times. If you want to set 6 (or fewer) specific testimonials, you will need to trash the unwanted testimonials from the 'All Testimonials' section.
